

## DANGEROUS MEDICINE

Our free site places ads media media on the search for victims of medical fraud for filming TV broadcasts publishing articles and other materials. Many of our visitors have already faced deception they can share their stories. In turn, the plots and stories can help them in finding the truth. Traditional media such as television radio Newspapers have a great impact among pensioners of older people. Such people do not always know how to use the Internet to search for necessary information about the scams but these groups most often become their victims. The more and more media in their submissions, will look at this problem the less deceived, the elderly and the overly trusting citizens. The publications of the media can affect the legislative process in this area and indeed considerable progress can be achieved only through legislative initiatives. In the meantime, we can only inform, to warn and to tell about new cases of medical fraud. At different times to search for victims appealed to us 1 NTV STS RTRussia Today TV center, Novaya Gazeta and others. Contact form Mail This email address is protected from spambots.
