

In view of the adverse weather conditions - strong frosts, there is the likelihood of breakdowns exploiter

In view of the adverse weather conditions - strong frosts there is a chance of breakage operated in these days of motor transport. The situation is compounded by the fact that the settlements are at a considerable distance. To ensure safety of life and health of citizens in Pyschyug municipal district of the Kostroma region organized several temporary placing people where they could warm up poslednogo rest of the way. They are located in Pyschyug high school Central regional library. In the case of emergency situations on the roads, drivers can call the phone number to unified dispatch administration Pyschyug municipal district 84945227-7-81 or cell phone operators call the emergency services using the number 112. The dispatcher on duty will help to solve the issue with the evacuation of the car and subsequent placement of people in temporary accommodation. For the period from 5 to 7 January on the roads Pyschyug district, there were two instances of breakage cars on the tracks on values. In the first case, the driver decided on their own the issue of transportation of his car and his subsequent placement, the other turned in the single dispatcher service with a request for the provision of equipment for the evacuation of the car to settlement. For these purposes were allocated fire truck fire Department of the village of Almati. From rest in the place of temporary residence the driver refused. Honest media © 2017 Design Studio Of Sergey
